

## Cutting Instructions for Evening Star

You can cut this block using quick cutting techniques or use Marti Michell template set. The set you will need is SET B. If you don't have it, I will have some available in class. You can also quick cut and then trim using your "Corner Trimmer" tool from MM.

Take some extra time to prep your fabric before cutting. Press your fabric with some sizing or starch prior to cutting.

I have tried my best to make this info accurate. We will find out in class if I was successful. I hope I haven't overstepped my capabilities. (how's that for inspiring confidence?). Bring a little extra fabric, both light and dark. Cut one block for class. If you need to wait until we get to class to do your cutting, that is fine too. By that time, I will have a handout with all the cutting for a big quilt.

**You are cutting from one column or the other. Not Both.**
